

Daily statistics on availability and performance of InsingerGlissen's dedicated interface and its online payment channels

Note:
- InsingerGlissen does not envision to make any adaptations to the eBanking and mIn (insingerglissen.nl) interfaces and therefore is not able to identify when a third party provider logs into the Client's InsingerGlissen bank account.
- The mobile application does not support third party provider access and therefore does not support AIS and PIS functionality.
- No statistics are available for column Error response rate. Daily average time per request - AIS, Daily average time per request - CAF, Daily average time per request - PIS (Scheduled) SEPA credit transfer, Daily average time per request - PIS periodic SEPA credit transfer, because the PSD2 API has not been used during this period
